TOMORROW'S TECHNOLOGY FOR TODAY'S SECURITY

XIS-1517

Heavy Duty High Performance System Pallet and Cargo Inspection

TRANSPORTATION

Airport entrances and perimeters,
air cargo, and checkpoint technology.

PORTS & BORDERS

Border control, sea ports, and
other large cargo sectors.

CRITICAL INFRASTRUCTURE

Access control for prisons, courthouses,
mailrooms, hotel entrances and
military bases.

The XIS-1517 is the premier heavy duty X-Ray Inspection System with a tunnel opening of 150 cm x 170.2 cm (59" x 67"). The XIS-1517 is designed for screening crates, cargo and pallet sized objects at all security sites, including airports and customs locations.

With a low conveyor height of just 38.3 cm (15") above floor level, loading and unloading of heavy freight is simple. Likewise, equipped with a standard 180 kV generator, the XIS-1517 is also capable of supporting an upgraded 200 kV generator.

The XIS-1517 consistently delivers high quality imaging and outstanding performance. The XIS-1517 is your solution to advanced cargo screening.

All Astrophysics X-ray Inspection Systems are equipped with Real-Time Diagnostics, a unique Astrophysics feature which allows users to monitor system health. This software was specifically engineered to save you valuable time and money. If requested, Astrophysics would also be able to connect to your system and troubleshoot any issues remotely.

An exclusive Astrophysics option is our 6 Color Imaging, which enables operators to view screened objects in 6 colors, each color correlating to a specific range of Atomic Z-Numbers. 6 Color Imaging enables operators to achieve optimal material identification which improves throughputs.

Astrophysics is committed to providing quality products and services nationwide. We listen to our customers and offer customizations and order flexibility based on their needs.

Backed by a team of engineers from our City of Industry, California center of excellence headquarters, Astrophysics designs cutting-edge X-ray screening technology for detecting weapons and contraband for transportation, ports, borders, critical infrastructure and other industries that present security risks.

Astrophysics is headquartered in the United States and maintains a global presence with service delivery worldwide. Astrophysics is committed to global safety and is proud to present this new age of screening security—driving the industry into the technology of tomorrow.
